DETAILED ACTION

Claims 1-21 have been canceled. New claims 22-35 have been added.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title has been amended to correct a spelling error. The title now reads:

(currently amended) Attenuated ~~Flavivirus~~ Flavivirus Strains Containing A Mutated M-Ectodomain And Their Applications

The following is an examiner's statement of reasons for allowance: the prior art does not disclose an isolated and purified peptide consisting of 6-9 consecutive amino acids of residues 32-40 of a dengue virus M protein ectodomain, wherein the amino acid at position 36 is substituted with phenylalanine.

The species "where a glutamine has been replaced with a pyroglutamic acid" as recited in claim 29 and claim 32 reciting the peptide of claim 22, which has been conjugated to KLH, have been rejoined, thus claims 22-35 are allowable.

Because a claimed invention previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, the restriction requirement concerning species "where a glutamine has

Art Unit: 1648

been replaced with a pyroglutamic acid” as recited in claim 29 and claim 32 reciting the peptide of claim 22, which has been conjugated to KLH as set forth in the Office action mailed on June 1, 2006 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
